***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 24-34 have been canceled as being drawn to an invention non-elected without traverse.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose the particular method of accessing the interior of the tongue through an incision to treat obstructive sleep disorders. The prior art, in particular Edwards et al and Hissong et al, either provide a needle electrode into the tongue (Edwards et al) or treat the tissue by passing energy through the tissue surface (Hissong et al). Claim 19 has been amended to recite that a probe is advanced into a cavity created within the tongue. While Edwards advances a probe into the tongue, there is no teaching of suggestion of forming a cavity and introducing the probe into the cavity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
